

Get Ready for Kindergarten. Kindergarten Registration is May 2, 2019.

Students who will attend kindergarten in Fall 2019 must submit two state forms as part of the school registration process—the form that shows evidence of vision, hearing, dental, and nutrition screenings in the past year (a current Georgia Form #3300, revised 2013) and a valid Certificate of Immunization (Georgia Form #3231). Your healthcare provider or dentist may complete these forms or you may visit one of the local health department locations to complete the forms.

See the “Get Ready for Kindergarten” brochure or the school system website to learn about registration. Beginning **April 1**, parents may complete some registration paperwork on the school website. Families are encouraged to attend the **May 2** event at the school to finish the registration process. Your child’s registration will be delayed if you do not bring the needed documents, including the two required state forms, on **May 2**.

School screenings are provided as a walk-in service at the Gwinnett County health centers located in Buford, Lawrenceville, and Norcross. Families should arrive at least one hour before a center closes to make sure they have enough time to complete paperwork.
