## Local School Plan for Improvement

### Phoenix High School

Donna H Scott, *Principal*

Dr. Steve Flynt, *Associate Superintendent*

Accountability and flexibility are hallmarks of Gwinnett County Public Schools' success. Key to that success is ensuring that each school community understands the progress being made by its schools, as well as what plans will drive improvement. Each school creates a collaborative Local School Plan for Improvement (LSPI), with targeted goals based on student achievement results. These goals are dynamic, like our schools, and are updated to reflect changes that occur in schools. Data is used to determine areas needing improvement and to identify specific, measurable, annual objectives. Schools then determine how to use research-based strategies to achieve these goals, using flexibility as needed. The LSPI development process involves teachers, parents, and community members, so the entire school community has the opportunity to be involved in conversations about school improvement. Please contact the local school principal for more information about the school's plan and progress.

- **Long Term Goal**

Phoenix High School will increase the academic performance in Language Arts, Math, Science, and Social Studies.

- **Long Term Goal**

Phoenix High School will demonstrate measurable gains in student achievement through reflective and collaborative teaching to ensure that all students graduate on time with opportunities to continue postsecondary education and/or enter the work force.

- **Annual Goal**

Phoenix High School will increase academic performance in the four core academic areas for all students. The increase will be determined by increasing the number of students that pass the EOC and by increasing the number of students in the proficient area.

- **Long Term Goal**

No goal associated with this objective

- **Annual Goal**

Phoenix High School will increase the graduation rate including all summer school graduates by 2% on the CCRPI indicator.
