

2015 - 2016

Local School Plan for Improvement

Gwinnett Online Campus School

Dr. Christopher M Ray, *Principal*

Nancy Martin, *Assistant Superintendent*

Accountability and flexibility are hallmarks of Gwinnett County Public Schools' success. Key to that success is ensuring that each school community understands the progress being made by its schools, as well as what plans will drive improvement. Each school creates a collaborative Local School Plan for Improvement (LSPI), with targeted goals based on student achievement results. These goals are dynamic, like our schools, and are updated to reflect changes that occur in schools. Data is used to determine areas needing improvement and to identify specific, measurable, annual objectives. Schools then determine how to use research-based strategies to achieve these goals, using flexibility as needed. The LSPI development process involves teachers, parents, and community members, so the entire school community has the opportunity to be involved in conversations about school improvement. Please contact the local school principal for more information about the school's plan and progress.

- **Long Term Goal**

Gwinnett Online Campus is committed to deliver instruction using a blended model focused on 21st century skills. Gwinnett Online Campus will rank among the top 10 schools in the district at each level with 100% of the students scoring at or above district averages at all grade levels.

- o **Annual Goal**

Gwinnett Online Campus students in grades 4 - 12 will score an average of 80% on Math District Post-Tests.

- o **Annual Goal**

Gwinnett Online Campus students in grades 4 - 12 will score an average of 80% on LA District Post-Tests.

- **Long Term Goal**

Gwinnett Online Campus will continue to be recognized internationally for innovation and delivery of exceptional online instruction using a blended model.

- o **Annual Goal**

The Gwinnett Online Campus Instructional Leadership Team will conduct a systemic, strategic, structural review of the overall design and delivery of online and blended instruction at GOC. A strong emphasis will be placed on setting up analytical systems which support learning pathways and create a personalized learning experience for students.
