What online classes can rising 9th graders take?

What if I want to withdraw and receive a refund?

Do I have to log in to my course every day?

Yes, you will need to log in each day during the school week (Monday through Friday) during the entire summer session. An online course requires 16–20 hours a week per course during the shorter, more intensive summer classes. **NOTE:** The PE and health classes open to rising 9th graders require face-to-face sessions, as indicated in the gray box on the back of the brochure. These sessions are mandatory.

What is an online class like? How are the health and PE courses structured online?

Online courses offer flexibility with summer schedules because the content is accessible 24 hours a day, seven days a week. An online class is similar to a face-to-face class in the following ways. There is a teacher. You have lessons. You have homework, due dates, class discussions, and tests. Students may “attend” class at any time of the day, but are expected to log in every class day, Monday through Friday, during the summer session. Most work is completed online, with the exception of the fitness pre- and post-tests in PE, and final exams. Students also are expected to log in during course-specific Adobe Connect sessions for live, online instruction. Teachers will communicate through phone, email, and course feedback. For more information, see the demo course available on the website, and additional information in the Academic Departments section.
