

information management and technology

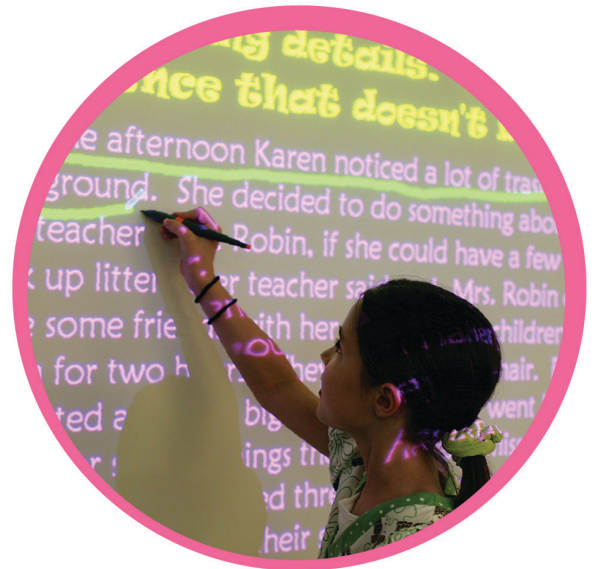

Building a Better Gwinnett

1 Document. 10 Priorities. 1 Direction.

Key Messages for the Strategic Priority for Information Management and Technology...

- Technology is everywhere in the lives of our students, their parents, and our employees—at home, at play, and at school.
- Students and staff will use digital tools to collaborate, create, and innovate, harnessing technology to facilitate teaching and learning.
- Appropriate technology resources will make learning real and relevant for our students.
- Students and staff will have the skills, training, and tools in order to use technology effectively, safely, and responsibly.
- GCPS' robust online environment will grow and evolve to meet the changing needs of students and staff.
- Technology will support day-to-day operations of the school system, ensuring operational and analytical excellence.
- Digital tools strengthen the home-school connection, enhancing communication.

Strategic Priorities

Building a Better Gwinnett
