

Tips for Great Projects

- Test project on a variety of machines before submitting to the festival (use high-quality dvd for project).
- Save project in a format that doesn't require specialized software to view.
- Be sure to embed audio with the project - listen to the project on several different machines before sending.
- Double-check for spelling and grammatical errors.
- Include Producer and Talent Media Release forms for **each** student involved with the project.
- Follow copyright guidelines and include permission from copyright holders.
- Use copyright free music websites such as AirCraft Music Library.
- Be sure no two projects have similar names - and avoid labeling them numerically (ie. SnowDay #1, SnowDay #2, etc.).
- Be creative! Have fun with your project, and be sure to ask at least one other person to proof and provide input on your entry.
